# Ashish Dhakal

Computer Engineer

## PROFESSIONAL SUMMARY

As a computer engineering student, I have developed my skills to craft interactive and functional web applications while exploring new technologies. I am eager to learn and take on challenges to broaden my knowledge in this ever-evolving field. My commitment to growth and collaborative nature add value to any team. I am also passionate about exploring the latest technologies in various IT-related fields to contribute to impactful projects and achieve meaningful outcomes.

## WORK EXPERIENCE

Intern (Remote) DEC 2023-FEB 2024

Pahadi research LLC | Seattle, USA

## PROJECTS

Cosmetic Shop: [luxmeestyle.netlify.app/](https://luxmeestyle.netlify.app/)

This is simple website for cosmetic shop where different products can be displayed with their price.

### SOCIETY ENGAGEMENT SYSTEM:

[https://github.com/Mansish01/Tech\\_Army](https://github.com/Mansish01/Tech_Army)

This is the web app used for connection of local bodies to their citizen where citizens can post a complaint and local bodies will try to solve it by discussing it with experts and other citizens.

### NEWS MAGAZINE:

<https://github.com/ashish71-ui/Amazon-Shopping-page>

This is simple news magazine site which shows latest news.
